

ONEPATH INNOVATION MAKES BUSINESS EASIER AND FASTER

OnePath is streamlining the way you partner with us. Saving you time, working smarter and helping your clients get the cover they need, faster.

We have enhanced our quote and application technology – **OnePath Illustrator** – to **completely integrate with our award winning Pre-assessment tool and underwriting engine OneCare Express.**

This end-to-end solution can be accessed online or offline, anytime and anywhere creating an all in one seamless experience that can be accessed quickly and easily by logging into Illustrator.

To give you flexibility we have also made updates to Illustrator desktop which now has all the smart user experience upgrades that come with the online variant and includes automatic syncs that ensure you stay up to date with every client.

Once your client's policy application has been submitted, use **OneView Life** to manage your clients' portfolio including tracking applications, submit and monitor claims progress, quote to increase/decrease clients' cover, access deep portfolio insights and analytics.

Seamless experience saving you time with every client

- Quote, pre-assess and apply online from the same location.
- Smart navigation allows you to complete an application in any order.
- Consistent experience in online (Apple Mac compatible) and desktop variants.
- Quotes and applications automatically sync between online and desktop variants.
- Automatic premium updates where a loading applies after pre-assessment.

Includes:

Award-winning, time saving innovation

- Get indicative assessments on loadings and exclusions, in **less than 5 minutes.**
- Questions are phrased in everyday language. No medical jargon.
- See Pre-assessment outcomes and manage client expectations upfront and on the spot.
- Awarded Canstar Innovation Excellence Award 2018 – Pre-assessment Wizard.

Underwriting faster, smarter and easier

- Complete applications 30% faster.
- Improve disclosure by searching a wide range of common medical conditions and completing the Personal Statement using everyday language.
- Get on the spot acceptance for some medical conditions.
- Uses Artificial Intelligence developed in collaboration with University of Technology Sydney's Advanced Analytics Institute.
- Saves time as some answers from the pre-assessment are available in the Personal Statement.

Offer your clients flexible ways to complete the electronic Personal Statement:

Complete online, arrange a tele-interview with consultant support or through a personalised link to complete it at a time that suits them.

Insights for proactive client management

Comprehensive client management portal helping you deliver a better service to your clients.

- Generate quotes with 10 year premium projections for your clients' existing policies – including increasing, reducing and/or removing covers.
- Allows you to send important documents to us.
- See upcoming client events quickly and easily.
- Run reports across your entire portfolio.
- Access OneView Life online on any device.
